

INDUSTRIES SERVED

Power ::

Fisher Tank Company is very experienced in the Power Industry. Power projects can be extremely challenging due to the site conditions and close coordination required with other contractors. Our experienced crews and staff are more than capable of meeting any challenge. We **engineer, fabricate, and construct** Demineralized Water Tanks (carbon and stainless), **Fuel Tanks** (double and single wall), Raw/ **Fire Water Tanks**, FGD Process Tanks, **Stacks**, Limestone/Fly Ash **Silos**, and various other tanks for our Power Customers.
