

SERVICES

Repairs ::

All repair work is performed by **ASME**-certified welders, who work under the supervision of experienced and conscientious foremen. All work is performed in strict compliance with applicable safety requirements.

Some examples of repair work performed by Fisher Tank Company include, but are not limited to:

- Tank jacking to repair an existing foundation or build a new one
- Shell patches or replacements
- Bottom replacements
- Roof plate repair and replacement
- Pit welding of corroded areas
- Floating roof seal replacements
